**DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 102***

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Huang (U.S. Patent No. 6,042,780).

Huang discloses a method comprising coating the exterior surface of core with a functional coating, placing the coated core in a mold, filling the mold with powdered materials and bonding with the functional coating material at elevated temperature and under high pressure by HIP, col. 8, l. 17-45, wherein the functional coating can be multilayered similar material or multilayered dissimilar material, col. 8, l. 14-16 and 48-5. After consolidation the core is removed from the consolidated product, col. 12, l. 36-39. The removal of the core inherently produced hollow article with internal coating as claimed.

3. Claims 3-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claim 11 is allowable.
